04/20/2019 21:22 [url= Time to Get Serious About Your Mental Health The new study highlights the importance of mental health for the national economy and the human capital of the nation. Incidents of suicide in youth have become more problematic. According to the latest data released by the BCA in 2009, the suicide rate in youth aged 10-24 was 17.7 per 100,000. If the trend continues, another 3,000 suicide cases may occur in 2010. The country's economic capital ranked 77th in the world in the 2010 'Global Competitiveness Report' published by the World Economic Forum. The recent increase of suicides may be one of the reasons for this. The subject can be a concern to virtually every family. Although it is not usually discussed, the mental health problems faced by families are often ignored. You can view this mental health articles by clicking the link below.
