Naughty Boy) (Official Music Video). Hovercraft porno download - Category:Naughty Boy albums Category:2013 debut albumsQ: Get file name from video file in Swift 4 I'm currently making a media player using Swift 4 and SwiftUI on iOS 12. What I'm looking to do is to set a few different different sounds for different items on a playlist and when the user taps on an item, the audio should play from the corresponding file. What I have so far: Playlist(var items: [MusicAlbumItem]) { SongListView(items: items) } struct SongListView:

```
View { var items: [MusicAlbumItem] var body: some View { List(items, id: \.albumName, tag:
Int()) { item in NavigationView { PlayMediaView(fileName: item.soundName) } } } } struct
PlayMediaView: View { var fileName: String var filePath: URL init(fileName: String) {
self.fileName = fileName self.filePath = Bundle.main.url(forResource: fileName,
withExtension: "mp3")! } } So basically when the user taps on an item in the playlist, the
