sprites moving on a tilemap This is not a duplicate because I have to do it with tilemaps
and not image maps, I found an answer here, but i am still lost. I have a map, on which I
draw a bunch of squares. On each square I have a sprite, and when I click on a square the
sprite moves to a position I have specified, so it needs to be on a specific square. It's like
a chess board, where if a piece is on a certain square, it has to move to that spot. At the
moment, all my squares move with the same speed, and that's not what I want. I would
like to speed up and slow down the animation of the sprite, depending on the distance I
move the sprite to the square, for example: If I move my sprite to square 16, the sprite
animation speeds up, and if I go to square 6 the sprite moves slower. I have no idea how I
should proceed, any help would be greatly appreciated. Thanks in advance public void
moveSpriteTo(int x, int y) { String newX = "0" + x; String newY = "0" + y; String coords
= currentCharPosition + "|" + newX + "|" + newY; Log.d("MyApp", "Coords:" + coords);
String[] oldCoords = coords.split("\\|"); String[] newCoords = coords.split("\\|"); String[]
xCoords = oldCoords[0].split("-"); String[] yCoords = oldCoords[1].split("-"); float
xCoord =
