

---

There are lots of problems with  
activation Does not have the  
functions I want Does not work on  
some computers Has a lot of errors  
that make the program unusable It  
has no quality control Does not  
have any version history Does not  
work with many PDF creators  
Does not keep my original settings  
Is quite slow Is totally bloated  
Does not store settings properly It  
is not truly anonymous It is not a  
real security solution It is in direct  
violation of the GPL v3 license

---

When I open the PDF Architect License Expiration dialog I am told that the license has expired. I have been using it for more than a year.

I have never been asked for my license before, and I have never heard of this "license expiration" feature before. I can only assume that Adobe is removing this feature. Before I remove PDF Architect from my computer I want to know what can be done about this problem. Edit: I tried this: I uninstalled the software and

---

then reinstalled it. I used the uninstaller that comes with Adobe Acrobat. I tried reinstalling on a different PC. I tried a standard uninstall in Windows. But the license expires dialog keeps appearing! A: I tried this: I uninstalled the software and then reinstalled it. I used the uninstaller that comes with Adobe Acrobat. ---

this, try creating a fresh user account to use PDF Architect. Are you creating the software as a normal user (not admin)? Are you attempting to create a license for the current user account? # get Makefile directory name: THIS\_MAKEFILE\_PATH:=\$(word \$(words \$(MAKEFILE\_LIST)),\$(MAKEFILE\_LIST)) THIS\_DIR:=\$(shell cd \$(dir \$(THIS\_MAKEFILE\_PATH));pwd) # BIN directory BIN := \$(THIS\_DIR)/node\_modules/.bin

---

```
# Path PATH :=  
node_modules/.bin:$(PATH)  
SHELL := /bin/bash # applications  
NODE?= $(shell which node)  
YARN 2d92ce491b
```
