
Letasoft Sound Booster 1.1.88 Free Download

April 11, 2020 - Letasoft Sound Booster free download is allowed. Its a completely offline installer independent from Letasoft Sound Promoter 1.1.88 installation. Letasoft Sound Booster is a simple application that allows you to boost your media and audio volume without increasing your hardware. The application automatically detects the device and sets the optimal volume level for it. It handles sound files quickly and easily, increasing the default sound volume. At the same time, it protects your personal audio files from unauthorized access.
